NORMAL TO HAVE WOMEN'S BUILDING

PLANS PRACTICALLY PERFECTED FOR $25,000 DORMITORY.

WILL ACCOMMODATE ABOUT 50 STUDENTS

Construction Will Be Privately Financed, But Structure Will Eventually Become School Property

Arrangements are practically completed for the erection of a women's dormitory, which will be constructed during the next year for the use of the State Normal School of Maryville. It has been privately financed, and a few details yet remaining to be completed are fully assured of being satisfactorily consummated. The property will be operated under the direction of the Normal School and will eventually become its property. The grounds, building and equipment will represent an investment of approximately $25,000.

The dormitory will be situated on the west portion of the old Judge Ramsey property, the lot being 100 by 201 feet, and will face the entrance to the Normal grounds. It will probably contain three stories, besides a half basement story and a sub-basement, the latter containing the heating apparatus and fuel storage. The half-basement story will contain a kitchen with modern equipment, storage rooms, refrigeration rooms, serving room, dining room, servants' quarters, laundry and small waiting room.

The main floor will contain parlor, library, matron's rooms, office, consultation room, cloak room, and six bedrooms, some of which may be reserved for guest rooms or sick rooms. The two upper floors will each contain twelve rooms, so that with two students to a room the building will house approximately fifty students.

Each room will have closet space abundant for two people and will be supplied with hot and cold water, heat, light and suitable furniture. Each floor will contain a bath room with tub and shower baths. It is designed to make this building as nearly fireproof in construction as the funds will permit. It is possible that sleeping porch accommodations will be provided for each floor.

The selection of plans and letting of contracts will be in the hands of a committee working under the general direction of the Board of Regents. Approximately $20,000 will go into the building itself. The furnishing and equipment of the building will cost in the neighborhood of $3,000.

This is a feature which will mean much to the future of the Normal School. Practically all educational institutions have accommodations of this type, and there is a great deal of inquiry from prospective students of the Normal School for accommodations of this nature.

So far as can be learned the other normal schools in the state have not exceeded their enrollment for the fall quarter of 1915.

Meredith's time today was 2:38 7-10.

Bob Simpson, an American sprinter, won the 110 meters hurdles in 14 4-5 seconds, which surpassed the Olympic record by one-fifth of a second.

The American team won the relay race.—St. Joseph Gazette.

NO VACANCY EXISTS

SUPREME COURT SUSTAINS ROACH IN HIS CONTENTION.

LAMPKIN WILL HOLD OVER

Mandamus Proceedings Brought Yesterday by I. N. Evrard and Court Gave Opinion This Morning.

Special to The Democrat-Forum.

Jefferson City, Oct. 17.—The supreme court this morning sustained Secretary Roach in his contention of refusing to certify the name of I. N. Evrard, Republican nominee for state superintendent of public schools, on the ballot to be voted in the election next month. This means that U. W. Lampkin, who was recently appointed by Gov. Major will hold over for two years.

Saturday night Roach decided the constitution fixed the term of this office at four years, and that the statute which provides that in case of vacancy, the governor shall appoint until the next general election, is non-operative, and that he does not recognize any vacancy. Forrest Donnell of St. Louis, attorney for Mr. Evrard, filed mandamus proceedings yesterday in the supreme court to compel Secretary of State Roach to place Evrard's name on the official ballot. A ruling from the court was necessary today as the official ballot must be certified out by the secretary of state tomorrow.

Before the ruling of the supreme court, Mr. Lampkin was selected by the Democratic state committee in session at St. Louis yesterday as the nominee for this office.

WILSON IS WORTHY

WHAT PRESIDENT UNDERWOOD OF THE ERIE RAILROAD SAYS.

SHOULD BE RE-ELECTED

Railroad Executive Declares Eight-Hour Law is Past Discussion—Prosperity Here.

Special to The Democrat-Forum.

Chicago, Ill., Oct. 17.—In an authorized interview given out here Sunday, F. D. Underwood, president of the Erie railroad, declared unequivocally in favor of the re-election of President Wilson.

Mr. Underwood said he fully indorsed the recent approval of the president's policies by Judge Samuel Lovett, chairman of the board of the Union Pacific railroad.

Mr. Underwood gave his reasons for thinking "the administration of President Wilson has, on the whole, been successful and worthy of a further trial."

"As to the statement that President Wilson played politics in the railroad negotiations for an eight-hour day by the brotherhoods in Washington, I once stated, and now reaffirm, that my opinion is that he used his best judgment in doing as he did.

"No one could fairly accuse him of playing politics, and, while my views did not correspond with his, I concede that his motives were honest. He did not carry the burden of the railroads or the claims of the brotherhoods as his load. He carried that of the people of the United States.

"The misrepresentations of the brotherhoods, which he mistook for truth, moved him to action. His eminent fairness is shown in the personnel of the commission that is to study the working of the experiment and his appointment of the committee on national defense, which, with but one exception, could not be improved on."

When asked his opinion of the eight-hour law, Mr. Underwood said:

"What matters how I or anyone else feels? The eight-hour law is past discussion. The Republican party, as well as the Democratic party, advocate it. Whether we like it or not it's here, to be lived up to so long as it is the law of the land."

"It doesn't matter so much about causes," he continued. "Prosperity is here. It must depend for its continuance largely on our courage, initiative and enterprise, and not on politicians or political parties.

"There can be no honest denial of the fact that many of the so-called Wilson laws have established business. The federal reserve act is one. The rural credits act is another. The passage of the child labor act was a humane, intelligent thing."

POUND AWAY IN EFFORT TO ENCIRCLE FRENCH CITY.

MEET WITH FIERCE GERMAN RESISTANCE

If Gain is Made Success Will Be of First Rank, as Place Was Considered Impregnable.

Special to The Democrat-Forum.

London, Oct. 17.—Violent fighting progressed all night on the Somme front, west and south of Bapaume. The British and French kept pounding the Germans in their encirling movement to "pocket" Bapaume. The German counters were followed up by a tremendous bombardment of the French positions at Sailly Saillisel.

The penetrating of this position by the French will be considered a success of the first rank, for the Germans have established powerful fortifications there, and the place is regarded as impregnable.

The next objective of the French in that sector was the town of Le Transloy, also on the Bapaume-Peronne line. In the meantime the British are pushing on to Lebarque, along the Bapaume-Albert turnpike, meeting a stormy resistance, however. Only three miles now separate the British from their prize, Bapaume.

On the eastern front the Germans have sent reinforcements into the Carpathians for a counter offensive, the object of the attacks now being mainly to drive between the Russian and the Rumanian armies. Terrific fighting is in progress all along the front in the Rumanian theater of war. The Teutonic pressure has not been relaxed. The defense of the Rumanians has been stiffened with the arrival of more Russians.

Another Greek Note.

London, Oct. 17.—Another note of stronger tone than any of the predecessors was handed the Greek government by the commander of the Anglo-French fleet in the Mediterranean. An Athens dispatch says that the cabinet council has been summoned and more than a thousand French and Italian sailors are patrolling Athens and Pireaus, supported by machine guns.

London, Oct. 17.—British attacks on the front of Bapaume have been extended farther north, the war office announced. The German trenches seven miles west of Bapaume were entered during the night.

day's St. Joseph Gazette:

Think of it—you poor, down-trodden husbands who are obliged to pay from $5 to $10 a yard for five or six or seven yards of material for the dear wife's autumn suit in India the styles never change, and they aren't likely to, either, in the next several years, according to Miss Daisy Dean Woods, missionary, who has been one of the principal speakers at the convention of the Des Moines branch, Women's Foreign Missionary Society of the Methodist Episcopal church, and is returning very soon to Calcutta. No buttons, no hooks and eyes, no sewing or pinning—just about ten yards of material artistically draped. There is one redeeming feature, however. Folks there don't believe in banks and put all of their money into costly jewelry. So the women are simply loaded with earrings, wristlets, bracelets—the whole length of their arms—necklaces, nose ornaments, and jewels even pasted on their foreheads.

Miss Woods, who has been in India five years, tells most interestingly of the life of women there.

Social Life Limited.

"The social life of the women of India is very limited," she said yesterday. "There is no organized social life whatever, and each caste, of course, move strictly within its own circle. A girl is very much disgraced if she is not married before she is twelve years old. Recent statistics showed that more than two thousand babies, not more than one year old, were already married. The majority of girls there marry when they are practically babies, the British law forbidding that they go to their husbands' homes before the age of ten years."

As to the education of India's women and the advancement along that line, Miss Woods said: "Women of India were always secluded and never allowed to go about with unveiled faces. Now there are 40,000,000 of these, while not more than 250,000 have become emancipated, so to speak. These latter teach in our missions or go about aiding the missionaries. You see, until very recently, and in some parts of India now, it has been and is considered shameful for a woman to know anything or to have even an inkling of an education. There is practically no government education provided for India's women, although there is such for the men.

"Slave for Life."

"Divorce in India? not legal divorce I think. A woman is the slave of her husband; she is bound to him for life, and for her there is no alternative. If he dies she cannot remarry. The husband, however—why, he may have just as many wives as he thinks he can afford. Men who do have several wives usually discard the latest for the 'new love.' The man is master; the woman, servant."

Miss Woods tells that there are professional bridegrooms in India, who go about looking for a father whose daughter has reached the "age limit," and for an unusually large fee marries her. Miss Woods has done wonderful work in India and is loved by a large circle of friends all over the country. She is a Standard Bearer missionary of Iowa, and fairly radiates happiness and sunshine wherever she happens to be. She will sail for Calcutta Nov. 11.

Normal News

By C. H. McReynolds.

The senior class of the Normal will put out an annual this year. This was the announcement made by President Richardson this morning at assembly. An annual makes a fine place to cast on paper monuments in memory of what the athletes of the school looked like and as to how they acted. When mention of an annual was made several of the football men began talking of the best method to pursue in picturing football men. Of course, the "dummy" will get the first page of the athletic division, as it is he who must "suffer" most from the poor tackling of those who don't know how. Then there will be "Grizzly" Pickens, captain, on the next page, without any obstructions, unless Tarkio insists that we cage him as dangerous. But, not going into details, an annual endures as long as the student does. Only the other evening a student said that when she got real homesick she always sat down and turned the pages of her high school annual. It again landed her amid the dear and familiar friends and haunts of other days. An annual makes us conservative. We want to go back and look around and if we cannot we then send our younger friends there to school to learn the truth of what we have told them.

Mr. Colbert made a talk this morning in assembly on the subject "The Man in the Moon." One morning not long ago, during one of his assembly talks, Prof. Colbert signified his desire to live a thousand years, that he might learn more. It is now the custom among faculty members to always mention this ambition of Mr. Colbert's when they have anything to say about him. We do not know just why "The Man in the Moon" was chosen as a subject unless the speaker believed the man in the moon has found perpetual youth, and the only way for one to get this is by studying this gent. The man in the moon was described as having several characteristics. The first was of being "a flirt." No one denied this, as they considered that Mr. Colbert knew more about the moon than they did. But we wonder who was flirting with the moon when Prof. Colbert first noticed this characteristic.

Next this man was accused of being lonesome, or lazy. If he is not lonesome, as some say, there is a woman in the moon also, with a bundle of sticks on her back, then he is lazy, because the woman is doing the work.

The moving pictures, such as volcanoes, earthquakes and such that formerly entertained him have ceased. We have the moon beat in that we have lecture courses here in Maryville, was the conclusion that the writer wanted to draw from the speech, but Mr. Colbert would not allow it then, but h can't help himself now.

The Normal girls are now indulging in the famous English game of hockey. Did you ever see a game of hockey? No? Oh, yes you did, when you were out in the country school. We don't know what you called it, but some think of the good old days of youthful sports when shinny was freely indulged in until some one got his shins broken or soaked in the bean. But hockey is more refined and they don't use tin cars.

"THE GRIP OF JEALOUSY"

Southern Film to be Shown at Fern Theatre Tonight.

Going back to the days when slaves made rich the Southern planter and their traffic brought wealth to the rugged brutes who acted as "overseers" and "drivers," the producers of Bluebird Photoplays have created a most interesting and sensational drama, entitled "The Grip of Jealousy" which will be the attraction at the Fern tonight.

Pretty Louise Lovely, an ideal type of Southern beauty, plays the leading role, and she is supported by a company of Bluebird Photoplayers that includes such clever people as Hayward Mack, who interprets the role of a distinguished Southern planter; Lon Chaney, the "heavy" of the cast, who is seen as the bullying over-lord of the slaves, and Marcia Moore, who makes a sweetly beautiful waif of fortune, buffeted by the cruelest of fates.

The foundation of the plot is a family feud of many generations of Grants and Moreys. Through the secret marriage of a Grant or a Morey, complications of such entangling nature as to incite murder, a kidnapping and chase by bloodhounds of a slave girl through a driving rain, while the wind adds its fury to the ruggedness of the scene.

Mrs. Clyde Walter and children of Burlington Junction are guests at the home of Mrs. Albert Harbison of Maryville.

DEATH OF MRS. M'CABE

Article Taken From Union Banner of Carlyle, Ill., Tells of Death of Wm. Langan's Sister.

The following is taken from the Union Banner of Carlyle, Ill., about the death of Mrs. Winifred McCabe, a sister of William Langan of this city:

Mrs. Winifred McCabe, for many years a resident of this city, and who had been ill for a long time, died at her home here Monday at 7 o'clock, aged 81 years, 7 months and 9 days.

The funeral took place Wednesday morning at 9:30 o'clock, the services being conducted at the St. Mary's church here. Burial took place in the Catholic cemetery.

Winifred Langan was born in Nyack, N. Y., March 1, 1835, and was a daughter of Owen and Catherine Langan. She came to St. Louis with her uncle, William Tighe, who adopted her, when she was 4 years of age. At the death of her uncle, who was quite wealthy, she was left half of his estate, the other half going to his widow. The death of Mrs. McCabe's parents took place some years ago.

In 1856 deceased was married to Dr. John McCabe in St. Louis, at the home of her uncle, Mr. Tighe. Mr. McCabe, while practicing medicine in this city and vicinity, was one of the leading doctors of the county. His death occurred in 1877. The couple had no children. After his death Mrs. McCabe resided in the house where she lived continuously until her death.

Deceased leaves to mourn her death three brothers, William Langan of Maryville, Peter and John L. Langan of St. Joseph.

Mrs. McCabe was well known in Carlyle and throughout Clinton county, and in her death we lose another one of our pioneer citizens, who saw much of the early life of Carlyle and Clinton county. She was quite wealthy owning a tract of land near here with producing oil wells on it, besides other property.

RHEUMATISM AFTER HIS DAY'S OUTING

Hunting Trip On a Wet Day Brings Painful Results.

Once upon a time Charles Mullen of Philadelphia went gunning. It was a dismal rainy day, and long exposure to cold and wet brought on a severe attack of rheumatism. He was confined to his home.

A friend recommended Sloan's Liniment, citing his own case as evidence of its effectiveness. Mullen bought a bottle and applied it to his aching limbs. Soon improvement was noticed and he was able to return to business.

Mr. Mullen writes: "Since that experience I have never been without Sloan's Liniment in the medicine chest." You will find it soothes bruises, sprains, neuralgia, in fact all external pains. At all druggists, 25c, 50c and $1.00 a bottle.
